

September 2026

The Honorable Gavin Newsom
Governor, State of California
1021 O Street, Suite 9000
Sacramento, CA 95814

Dear Governor Newsom,

I urge you to sign SB 903 (Padilla), the Wellness and Oversight for Psychological Resources Act.

I'm deeply concerned about how quickly and recklessly AI is being deployed in behavioral health care. SB 903 sets commonsense safeguards for the use of AI in behavioral health care that will allow its appropriate use to support the work of behavioral health professionals while protecting patient care.

Under SB 903, when AI is used to help diagnose, treat, or make clinical decisions about a patient seeking behavioral health care, its outputs must be reviewed and approved by a licensed professional before they are implemented. It stops chatbots from posing as therapists, requires patients' consent before AI records their sessions, and gives licensing boards the power to stop companies that share, sell, or train AI models on psychotherapy data in violation of privacy law.

People in need of care deserve to know that a qualified human being—someone trained, licensed, and accountable—is responsible for their well-being. That's what this bill guarantees, while enabling the use of AI to provide administrative and supplementary support and to safely expand caregivers' clinical capacity.

SB 903 passed the Legislature with near-unanimous, bipartisan support. It represents a thoughtful and balanced approach to regulating artificial intelligence technology. I respectfully ask that California join the other states that have passed similar laws.

Sincerely,

The undersigned 2,298 individuals

Signers include 1,589 behavioral health clinicians (psychologists, clinical social workers, marriage and family therapists, professional clinical counselors, associates, and those working toward their degree) and come from 393 California cities and towns.

Licensed Psychologists (306)
